VERMONT CONNECTIONS
COMPUTER SERVICES

At Vermont Connections, we know you can't manage what you can't measure.

You have invested in your IT infrastructure and rely on its performance, security and reliability. Vermont Connections will proactively manage risk and ensure its optimum performance using the most advanced performance monitoring and asset tracking tools.

At Vermont Connections we have invested in the technology and training needed to deliver superior value to our customers. We offer 24 x 7 remote monitoring coupled with comprehensive reporting, which gives us—and you—a better view on your IT, and helps you plan strategically to keep your resources and your budget on track.

Our comprehensive network audits often highlight ways for our customers to lower their IT costs through reducing costly downtime, improving performance levels, and eliminating lost productivity due to incompatible or out-of-date software.
